

Finding Images with Creative Commons

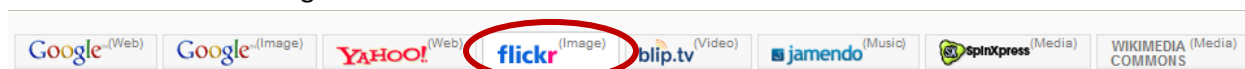

1. Type the following URL into your browser's address bar: <http://creativecommons.org/>
2. Click on **Find** to go to the Creative Commons Search.

Find »

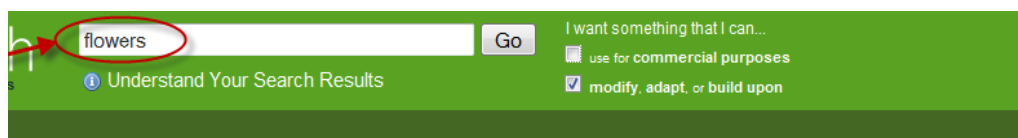

Find licensed works you can share, remix, or reuse.

3. Select an image search tab to open that website within the Creative Commons website. We recommend using **Flickr**.

4. Enter your search terms in the search box in the green bar. Do not use the search box on the Flickr site.

Do not type here!

S

5. Set your creative commons options. Next to the search box in the green bar, uncheck the box next to “use for commercial purposes.”

I want something that I can...

☐ use for **commercial purposes**

☒ **modify, adapt, or build upon**

6. Click Go in the green search bar. Your results will appear in the Flickr page, below the green bar.

7. To enlarge an image, click on the thumbnail to see the photo page.
Note: Clicking on anything below the green bar will take you out of the Creative Commons search.

From Swami Stream

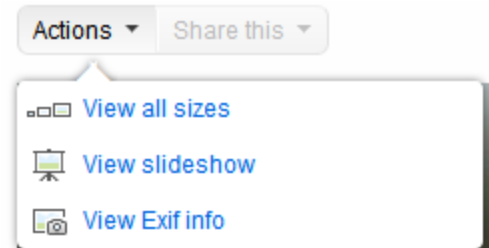

From Koshyk

8. On the photo page, click on the **Actions** button above the enlarged image.

9. Select **View all sizes**.

10. Select from the available sizes by clicking on that size.

License	Some rights reserved by X.u.k.i					
Download	Download the Medium 640 size of this photo (All sizes of this photo are available for download under a Creative Commons license)					
Sizes	Square (75 x 75)	Thumbnail (100 x 67)	Small (240 x 160)	Medium 500 (500 x 333)	Medium 640 (640 x 427)	Large (1024 x 683)

Note: Larger image sizes produce a better-quality digital story and permit more detailed zooms. It is generally best to select images that are **600 x 800** pixels or larger, where the choice is available. Images smaller than 300 pixels in width may have a jagged appearance and become pixilated in production.

11. After selecting the image in the desired size, click the download button.

Download	Download the Medium 640 size of this photo (All sizes of this photo are available for download under a Creative Commons license)					
Sizes	Square (75 x 75)	Thumbnail (100 x 67)	Small (240 x 160)	Medium 500 (500 x 333)	Medium 640 (640 x 427)	Large (1024 x 683)

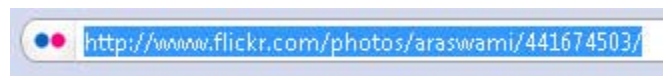

12. When prompted, save the image to your project folder on your computer.

Note: You may have to download the file first, and then move it to your project folder.

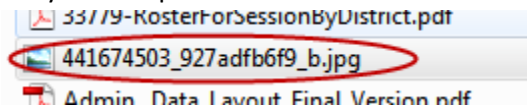

13. Click the Photo link at the top of the page to go back to the Flickr photo page.

14. On the photo page, highlight and copy the URL in the address bar.

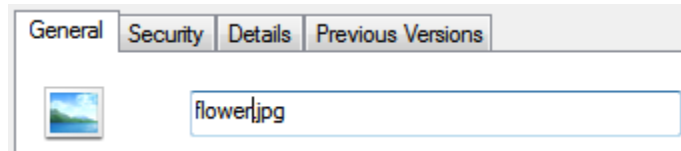

15. Locate your image file on your computer.

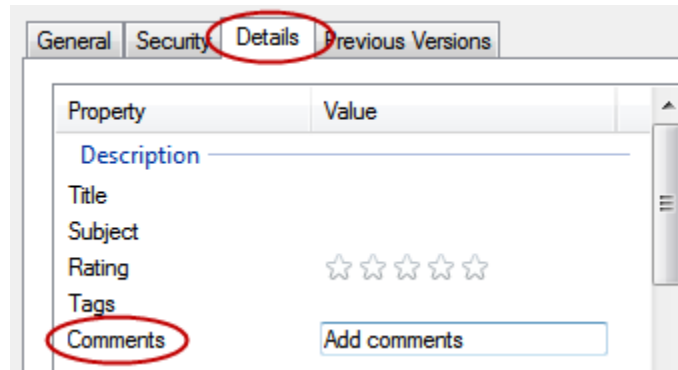

16. Right-click on the file and click on **Properties** (at the very bottom of the drop-down menu) to bring up the Properties dialog box for your image.

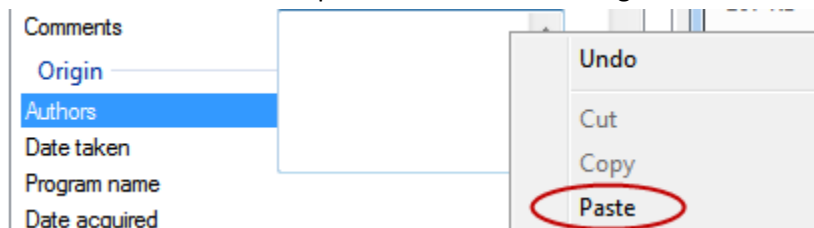

17. On the **General** tab, change the file name to something that will identify the image.

18. Click on the **Details** tab and mouse over the **Comments** line to bring up the **Add comments** box.

19. Click on the **Add comments** box to open the text box. Then right-click and click paste.

Note: If no Comments box is available for your photo, add the link to the photo as Title, Copyright, Author, or Image ID information.

20. Click **OK** to save.

21. When attributing a photo posted online, including the link to that photo should suffice as “attribution,” according to the Creative Commons rules.
